May 27, 2018 View on Amazon Here is a close runner-up in top tuners for bass guitars.. My favorite feature is that it gives you a “lockdown” sound and visual cue when your guitar is perfectly tuned.. The Korg GA40 Large Display Guitar and Bass Tuner was a close second choice for this list.. These range from basic, free plugs that perhaps lack a little finesse, through to pro-grade tools that elevate sounds to new levels.. While this is not a chromatic tuner capable of tuning all 12 notes, it can tune seven-string guitars and six-string basses.. Jun 10, 2020 How to choose the best guitar VST for you When it comes to plugins, there are thousands upon thousands of options open to you..
